- Tournament start time is 7:30 a.m. Please be there 30 minutes early to ensure on-time start.

- Boat wait timer duration is TBD depending on conditions. Skier may ask to go sooner if desired. For those less familiar with this, the timer starts as the boat exits the exit gates on the previous pass. In the drop zone, you will hear two beeps (get ready, rope is tightened), and then 5 seconds later, 4 beeps (time to ski).

- Ski to the drop buoy in the drop zone, not past. Pull out on the right at the far end, on the left at the dock end. Basically, remember to always pull out to the beach side on both ends.

- Skiers be ready when the boat arrives for you.

- Dock starter please help manage the people on the dock to keep tournament rolling.

- Skiers will have the choice of two types of ropes: 1) the Masterline "Optimized" rope, and a "regular" Masterline rope. Unless you know you have been training with an Optimized rope (which only became available this season), you may want to stick with the "regular" rope.

- Tournament-supplied light ropes are an option for Boys/Girls 1, 2 and 3. Please let the dock starter know if you'd like a light rope.

- At end of half rounds, boat will bring people from tower to dock rather than shore, and bring new tower judge out.
